

JUNE 2020 - THE NEW IGUANA DAY LIMO

Designed for a Unique, Luxurious Superyacht Guest Experience

After 11 years of amphibious innovation, Iguana Yachts is now launching to the superyacht industry, The Iguana Day Limo. True to the company's values of innovation, build quality and sense-of-detail, the all new Iguana Day Limo combines beautiful style with revolutionary protection from the elements in the form of an integrated yet retractable guest canopy. A generous use of space and well designed features facilitate maintenance and durability, whilst providing guests with an elegant experience for which Iguana Yachts are famous.

A luxury tender, amphibious beach lander and versatile sports platform. Designed for the guest experience, built for crew operation.

« With the launch of the Iguana Day Limo we offer a convenient solution for superyachts. We have created this new model specifically addressed for this market, giving the most demanding clients a fully integrated amphibious solution that will provide safety, luxury and reliability. »

Antoine BRUGIDOU
President & Founder

KEY FEATURES

TRAVEL IN FIRST CLASS - the comfort and luxury finish expected of the superyacht industry.

SAFETY - amphibious is not all about keeping your feet dry, but getting ashore safely. Protect guests from the swell and boat wash which plagues many docks and beaches.

COMFORT - protection from the elements. The unique canopy design, first in the industry.

VERSATILITY - Luxury guest transfer, enclosed limousine, day boat and watersports capable.

ACCESSIBILITY - 4 dedicated boarding points giving safe access for guests of all ages and abilities.

SPACE - oversize storage, dedicated luggage compartment and guest accessible drawers for shoes and personal items.

COMPACT - designed to fit a superyacht garage with a minimum height of only 1.75m

OPTIONS - Diesel, petrol or electric drive. Wide range of powering options.

CREATED SPECIFICALLY FOR SUPERYACHTS

Created specifically for the challenges of efficient superyacht operations, the Day Limo continues to elevate the performance evolution of Iguana Yachts. From its advanced technologies to its purposeful elegance, this tender is fitted for the comfort and protection of guests and many features to simplify work for the crew.

« Modular space and simplicity were the challenges in creating the dodger and we are proud to now offer the most versatile solution in the industry. Provides full cabin protection for guest transfer, open air for watersports and spray protection for the warm windy days. Our team is very proud of this unique achievement.»

Vivien DURISOTTI
Fritsch & Durisotti Design Studio

DESIGNED FOR GUESTS' COMFORT AND SAFETY

ACCESSIBILITY - The first experience when getting onboard this stunning tender is the space and the welcoming layout. The seating is arranged to provide privacy and comfort for all guests.

PROTECTION - Being protected from the wind, rain and sea spray is a key element of keeping guests comfortable. Iguanas innovative design is simple, smart and efficient. Neatly stored behind the backrest, the dodger deploys in 4 possible positions and protects the guests in all conditions.

COMFORT - The seats on the Day Limo are generously proportioned. The folding arm rests and integrated cup holders are ergonomically designed. When stowed, the main seating area will accommodate an extra 2 guests comfortably; a requirement on a tender this size. Having the capacity to comfortably welcome 12 guests is a great feature.

BUILT TO FACILITATE THE CREW OPERATION

SPACE FOR ALL- A superyacht tender needs to be spacious for guests but also compact to fit in a yacht garage. At only 1,75m high the Iguana Day Limo fits even the slimmest of superyacht garages.

STORAGE IS ESSENTIAL ON A TENDER - Drawers under the guest seat allow storage of shoes and personal belongings whilst the foredeck luggage storage holds 6 suitcases. A sliding fridge in the console ensures drinks are always chilled and readily accessible.

EASY TO MAINTAIN - Remote diagnosis and up to 3 years full warranty . 24/7 assistance with the Iguana service pack.

STABLE AND SECURE REAR STAIRCASE - Ergonomically placed handholds. The blend of luxury tender with the Iguana mobility system makes arriving on a beach seamless and rewarding. Side access is designed for all types of yachts and marinas from high docks to swim platforms. Boarding the Iguana is well thought out for ease and safety

BESPOKE CONFIGURATION - Diesel, petrol or electric. The Iguana Day Limo is offered with a wide range of power options including 300hp diesel or twin 225hp V6 for speeds up to 50 mph.

ABOUT IGUANA YACHTS

Since foundation in 2008, Iguana's raison d'être is simple : make boating effortless and safe.

Innovative amphibious boats, hand built in Normandy by a highly experienced team of designers, engineers and craftsmen.

The unique design of the amphibious tracks allows the Iguanas to smoothly climb a wide variety of terrains from soft sand and wet mud to uneven rocks and pebbled beaches. Iguana Yachts have built over fifty boats that operate across four continents.
