

*iguana* X100

## ULTIMATE ACCESS: **IGUANA X**

When the luxury brand Iguana Yachts decided to launch a new range of amphibious boats it did so in the knowledge that clients around the world had asked for a more solid, rugged boat, at a reduced price point.

A demanding task for the luxury boat manufacturer. Iguana Yachts took their time to create a whole new brand of functional boats - **Iguana X**. A range of rugged boats which will benefit from the luxury brand's trustworthy amphibious technology. Allowing owners to tackle virtually any terrain and sea condition.

The first model from this new brand is the X100 built on a Rigid Inflatable Hull which reduces production costs and most importantly the final client price, making the boat available to a wider public.

“With a decade of development and technology behind the Iguana Yachts Brand it was natural evolution that lead us to build the X 100 RIB. An easy to maintain, understandable and economical boat with the added value of an unlimited land drive. We have a number of clients who have expressed a need for a strong and functional craft that allows them to access their waterfront home regardless of infrastructure. A utility boat that can be used for watersports, fishing, exploring or simply creating lasting memories on the water. Essentially the Iguana X range is providing a new freedom for boaters.

Now any waterfront property owner will have access to a functional versatile amphibious boat.”

**Antoine Brugidou, Founder & CEO of Iguana Yachts.**

**TRIED  
& TESTED  
TECHNOLOGY  
ACROSS THE  
GLOBE WITH  
MORE THAN 100,000  
NAUTICAL MILES SAILED.**

## **INTRODUCTION**

Since the launch of the first Iguana Yacht in 2008 there has been a growing demand for a less luxurious amphibious boat. A more functional and rugged boat that can better fit the requirements of waterside property owners who want to launch easily and quickly, or those who cannot build docks or pontoons and those affected by tidal constraints.

For those clients an Iguana Yacht was too lavish, but they had a need for a boat that was capable of tackling any terrain. Hence the birth of the Iguana X. A strong and practical boat with an unlimited land drive that can conquer soft sand, wet mud, even pebbles and rocks.

## **KEY FEATURES**

### **POWER AT YOUR FINGER TIPS**

Up to 600 horsepower delivered through twin outboards

### **TOP SPEEDS**

Up to 55 mph

### **EMBARK IN ALL WEATHERS**

Seamless transition from land to sea even in 4 ft waves.

### **MORE RANGE, MORE USE**

A 380l fuel tank fitted as standard takes the range up to 150 miles

### **2 TONNE CAPACITY**

A ground capacity of up to 2 tonnes of payload gives plenty of allowance for guests and equipment

### **UNLIMITED LAND USE**

The cooled Hydraulic land drive produces unlimited drive and maximum torque

### **STEEP INCLINES**

The rugged tracks can climb straight inclines of 29% and on variable beach slopes like coming out of the water the capacity can exceed 45%

# IGUANA X 100 AT A GLANCE

A 10 meter centre console boat fitted with Hypalon Orca 860 tubes and the added value of Iguana's trademark amphibious tracks will be the most practical amphibious boat on the market.

The X100 is built as a strong and powerful boat with a versatile layout and is set to be the most family oriented, fun-to-use amphibious boat available.

The open deck has ample space for up to 12 passengers and the helm console has plenty of space for the clear and easy to use GPS, Deepfinder and stereo system.

The X100 has superb build quality, strength, outstanding handling and is able to land in the toughest boating conditions as the landing gear easily sails above waves of up to 4 ft.

Prices start from €220,000\*. This boat is extremely competitive and the pre order book is expected to fill fast as deposits of only €5,000 are requested to hold a space in the production schedule.

\*Excludes VAT & Taxes.

The driving position is designed to give owners maximum comfort and support with a twin seat for calmer days fitted as standard or the option of a plush captains seat for ultimate enjoyment..

As the only amphibious boat manufacturer which provides owners unlimited land drive functionality the Iguana X gives owners a freedom unlike any other boat on the market.

10 years of product research and development have contributed to the design of the Iguana X 100. The amphibious tracks are perfectly engineered to seamlessly fold into the hull of the boat and effortlessly deploy at the touch of a button when approaching land.

The powerful amphibious boat can mount virtually any terrain on its ergonomically designed tracks which are rugged enough to move a tank but designed to equal the ground pressure of a human per square inch, allowing owners to cross any terrain a human would and leave the same foot print.

## CONFIGURATION PACKS

The X 100 is a functional and accessible boat at heart and the design team have curated a list of options to suit just about every use. From a fitted hard top and integrated head to the all encompassing family and fishing kits they've thought of everything.

The well considered Comfort Pack includes spacious U shape seating including isolated storage box and back rest, Helm seating with integrated driver and passenger seats and twin reverse seats, Fresh water shower and 600 l of storage.

The Fishing Pack makes life simpler for any fisherman with 4 integrated rod holders, insulated fish box and macerator, rear foldable bench, helm seating with integrated driver and passenger seats and twin reverse seats, 600 l storage and raw water wash-down.

The Electronic pack complete with 10 inch Garmin sat nav, 25v VHF, fish finder, local maps and integrated sound system add to the effortless feeling the entire boat exudes.

While the Extra Power Pack gives owners an extra boost with twin 300hp engines and reinforced carbon fibre structure hull.

The electric anchor makes use easy when needed and the driver stop start system is the same as any modern car.

The multiple deck layouts make customising the X100 easy be it maximising the generous swim platform for scuba diving or transforming the deck into a social space for 16 guests the Iguana X will meet your requirements.

## ONE LIFE, MANY LIFESTYLES

The X100 is a flexible boat which can meet any demand.

### DAY CRUISER

The varied seating options for 16 make the Iguana RIB the perfect social boat while integrated head instantly extends the time you and your guests can enjoy on board.

### FISHING

The open deck gives anglers 360 degrees of fishability combined with the T-Top and integrated rod holders and multiple storage options for kit which can be easily off loaded on the shore or at your door.

### EXPLORER

The most rugged tracks allow owners to push further than traditional boats would allow, conquering hidden coves of powder soft sand is easy even with 18 on board.

### SUPPLY VESSEL

The Iguana makes an efficient supply vessel. She can effortlessly sail to land over waves of up to 4 feet and comfortably climb most terrains to pick up and drop off supplies at your doorstep in all weather conditions.

# BOATING MADE SIMPLE

## WHY IS THE IGUANA BETTER THAN A STANDARD BOAT?

### HOW LONG DOES IT REALLY TAKE YOU TO REACH BOATING FREEDOM?

Taking your car, finding a parking space, boarding your boat and getting out of the marina speed restrictions... With the Iguana the boat is in your garden or on the beach, simply board, turn the key and enjoy freedom within seconds.

### WORRY FREE

Marina manoeuvres, concerns of collisions within the marina, making sure you have properly secured your boat, is this the pleasure of boating? The Iguana is safe, easy to manoeuvre, stored on land away from storms, vandalism and opportunistic thieves.

### ALL ACCESS

Taking a cooler, picnic, watersports equipment and family to the marina means big planning and logistics. 80% of boating accidents happen when passengers embark and disembark. The Iguana is a steady and stable on land with a generous secure ladder which family can take time to board.

### STORAGE OF THE BOAT

How many times have you forgotten equipment at home and needed to return or driven back to the marina to double check your boat is secure. With the Iguana this is simple, your boat and all your belongings are safe and secure in your own backyard.

### EASY MAINTENANCE

Storing the Iguana on land means the boat is always dry and safe, sheltered from bad weather and can be easily maintained with no need for anti-fouling.

### BEST VALUE

How many times have you not used your boat because it was too much hassle to get to it. Current Iguana boat owners use their boat 6 times more than any previous boat they've owned. No storage charges, marina fees, trailer expenses or pontoon maintenance.

### PEACE OF MIND

24/7 support with unlimited telephone technical assistance. Durable materials like stainless steel, rubber and aluminium which are made to withstand salty waters are used throughout the boat Iguanans are made to provide owners total peace of mind.
